

# SUBLIMATION LABEL GUIDE

## FOLDED SUBLIMATED LABEL

**Tackdown:** Tonal running stitch ~3mm (1/4") from the top edge of the label.

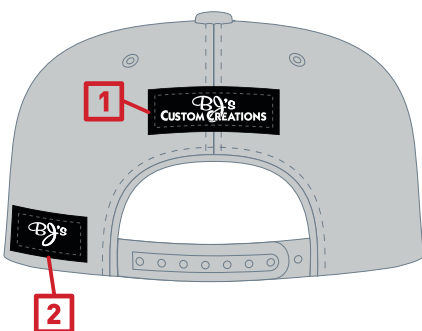

- 1 Centered on the arch above the adjustable back
- 2 3 Either side of the snapback
  - 1.5" recommended maximum width
  - Recommend keeping the label under 1" wide for all locations
  - These labels will be sewn through or over the sweatband on the interior
- 4 Anywhere around the opening, above the sweatband
  - Recommend keeping these as narrow as possible; less than 1/2" wide.

Standard sublimated label  
up to 2 inches in size.

Upcharge for additional inch.

## STANDARD SUBLIMATED LABEL

**Tackdown:** Tonal running stitch ~3mm (1/4") from the edge of the label (all four sides).

- 1 Centered on the arch above the adjustable back
  - Recommend width under 2.5" if the cap has eyelets - can be wider on mesh
- 2 To the left of the snapback
  - This label will be sewn through the sweatband on the interior
  - Recommend width under 1" if possible; height under 0.75" (3/4")
