

# **MPACT**

**Multiple Packages All Consolidated Together**

## **APPROVED DECORATOR**

In cooperation with alphabroder, our company participates in MPACT (Multiple Packages All Consolidated Together), which allows us to streamline our processes for better efficiency.

As a result, we're able to pass along the savings to you with some exceptional benefits.

### **HOW IT WORKS.**

1. Send us your purchase order and artwork
2. Place your order with alphabroder and have them drop ship it to us via Ground.
3. Receive your final decorated product directly from us or let us drop ship the order directly to your customer.

# THE BENEFITS.

**Free delivery on all orders.** We are able to receive all of our alphabroder orders in bulk, we can pass along the shipping savings to you.

**No change in ordering habits with alphabroder.** Whether you place your orders by phone, email or online you don't have to change a thing. Just ship the product to us and that's it!

**No change to daily cut off times.** Standard cut times apply for the MPACT program allowing you to take advantage of all hours of the day.

**Every purchase order packaged individually.** Packing purchase orders individually eliminates the time and energy usually required to unpack and break out orders. This also gives you the opportunity to send us smaller orders rather than consolidating to get free freight.

**Exclusive spoilage coverage plan.** If an item gets damaged during embellishment, you don't have to worry. Our company works directly with alphabroder for replacement product or credit. Maximum spoilage allowance applies per order.

**Reduced restock fee.** Orders sometimes have to be returned -- when that happens, you can minimize or eliminate extra costs.

**Single point of contact for every issue.** Have a question? Save time and call us about order status, tracking and other important information about your order.
